

Literacy and Numeracy for Adults Assessment Tool Release 3.0.36

The following changes were released within the Assessment Tool Production and Training environments on 21st August 2011.

Overview

The purpose of this document is to outline the changes and enhancements recently released to the Literacy and Numeracy for Adults Assessment Tool. This helps Organisation Administrators and Educators become aware of system modifications that will affect usage and viewing of both Assessment Tool environments.

New Enhancements for Organisation Administrators and Educators

Search option now available in the Assessments tab

- Assessments may now be located by name within the Assessments tab. To avoid time-consuming and repetitive searching for a specific assessment and as an aid to the already available filtering options, a Search text field has been included.

Located at the top of the screen within the **Assessments** tab, partial or complete words can be searched for, with the results displaying as below:

The screenshot shows the 'Assessments' tab selected in the navigation menu. A search bar at the top right of the content area contains the text 'rea' and is highlighted with a red box. Below the search bar, the page displays '1-8 of 8 Assessments' and 'Search results for 'rea''. A table lists the search results with columns for Assessment Name, Learners Completed (Set), Area, Assessment Type, and Assessment Status. On the right side, there are sections for 'Create a new assessment' with links for Reading, Numeracy, Vocabulary, and Writing assessments, and 'Filter assessments by' with checkboxes for Status (Active, Non-Active, Retired) and Areas (Numeracy, Reading, Vocabulary, Writing).

Assessment Name	Learners Completed (Set)	Area	Assessment Type	Assessment Status
<input type="checkbox"/> Breakthrough Reporting - 1st Semester	0 (3)	Writing	Non-Adaptive for Printing	Active
<input type="checkbox"/> Final Reading - Semester 2	0 (9)	Vocabulary	Adaptive	Active
<input type="checkbox"/> Unspecified Reading Assessment	1 (3)	Reading	Adaptive	Active Report
<input type="checkbox"/> Breadcrumbs	1 (16)	Numeracy	Adaptive	Retired Report
<input type="checkbox"/> Reading - Test for deployment 3.0.27	1 (57)	Reading	Snapshot	Retired Report
<input type="checkbox"/> 2010 Adaptive Reading Assessment	0 (1)	Reading	Adaptive	Retired
<input type="checkbox"/> 2010 Adaptive Reading Assessment	0 (1)	Reading	Adaptive	Retired
<input type="checkbox"/> 2010 Adaptive Reading Assessment	0 (4)	Reading	Adaptive	Retired

Introducing Bulk Learner Assessment Reports

- Individual Learner reports may now be printed out en masse. The Bulk Learner Assessment Report allows you to select up to a maximum of 20 Learners and generate a Learner Assessment Report for each Learner selected.

Access the report from the **Assessments** tab:

- Open an assessment.
- Select Learners who have completed the assessment.
- Click on **Export as PDF** within the **Bulk Learner Assessment Report**, located on the right of the screen further down.
- Open or save the displayed PDF.

The screenshot displays the 'Assessment' page in a Learning Management System. The top navigation bar includes 'Home', 'Assessments', 'Learners', 'Educators', 'Groups', and 'Administration'. The main content area is titled 'Assessment' and shows details for an assessment named 'Naas'. A search bar for learners is present. Below the search bar, there are buttons for 'Assigned Learners (5)' and 'Selected (2)'. A 'Remove Selected Learner(s)' button is also visible. A table lists learners with checkboxes for selection, their names, group information, and assessment status. The 'Assessment Status' is 'Not Attempted' for all listed learners. On the right side, there is a sidebar with 'Assessment Details' and 'Assessment Status' (Active). Below that, there is a 'Bulk Learner Assessment Report' section with a description and a red-bordered 'Export as PDF' button.

Display Learners that have completed an assessment Filter

- Latest Learner Results reports can now be filtered to show only Learners who actually have an assessment result.

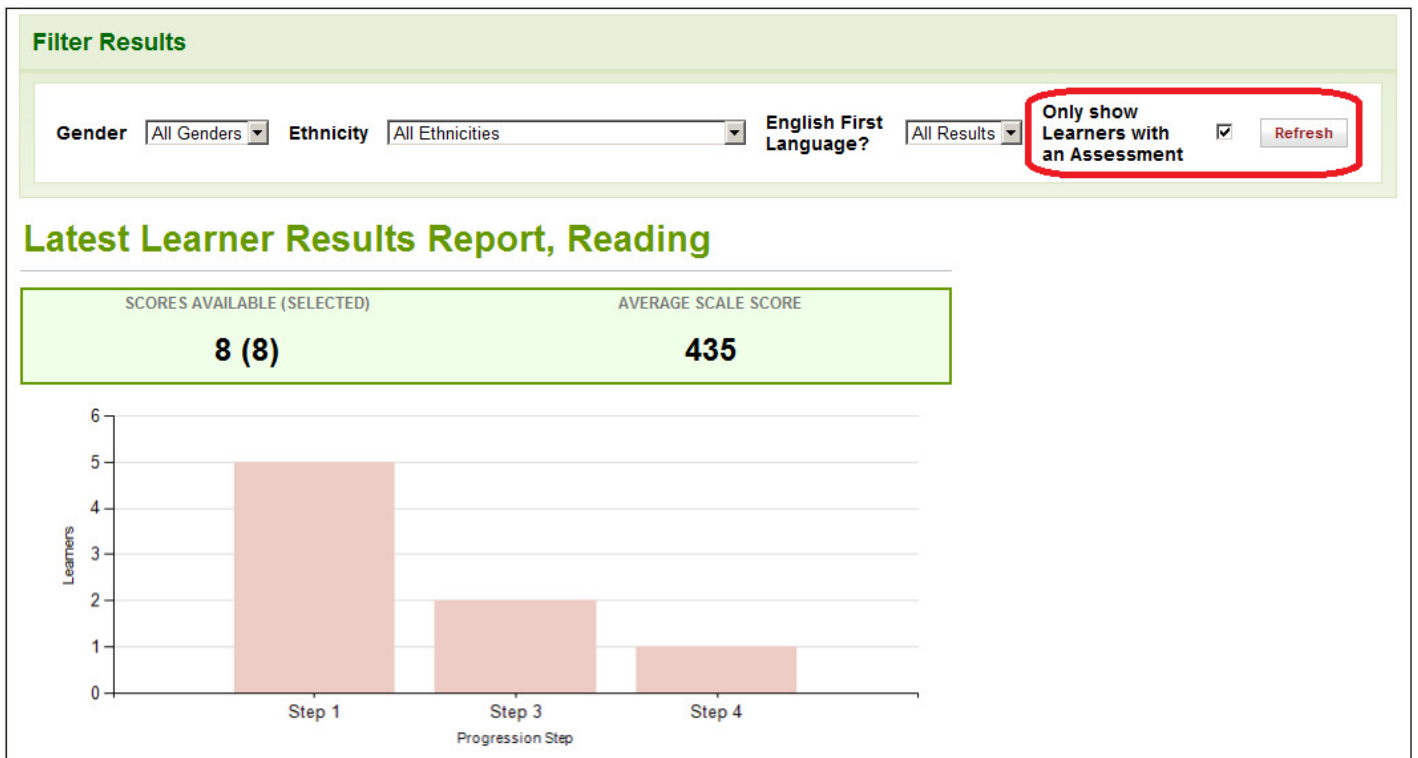

The Latest Learner Results report can be accessed from two areas.

From the **Groups** tab:

1. Select the name of the Group.
2. For the area you wish to report on, select the **View Learner Results** link in the **Latest Learner Results Reports** panel on the side menu. This link will only appear if Assessments have been sat by one or more members of this Group.

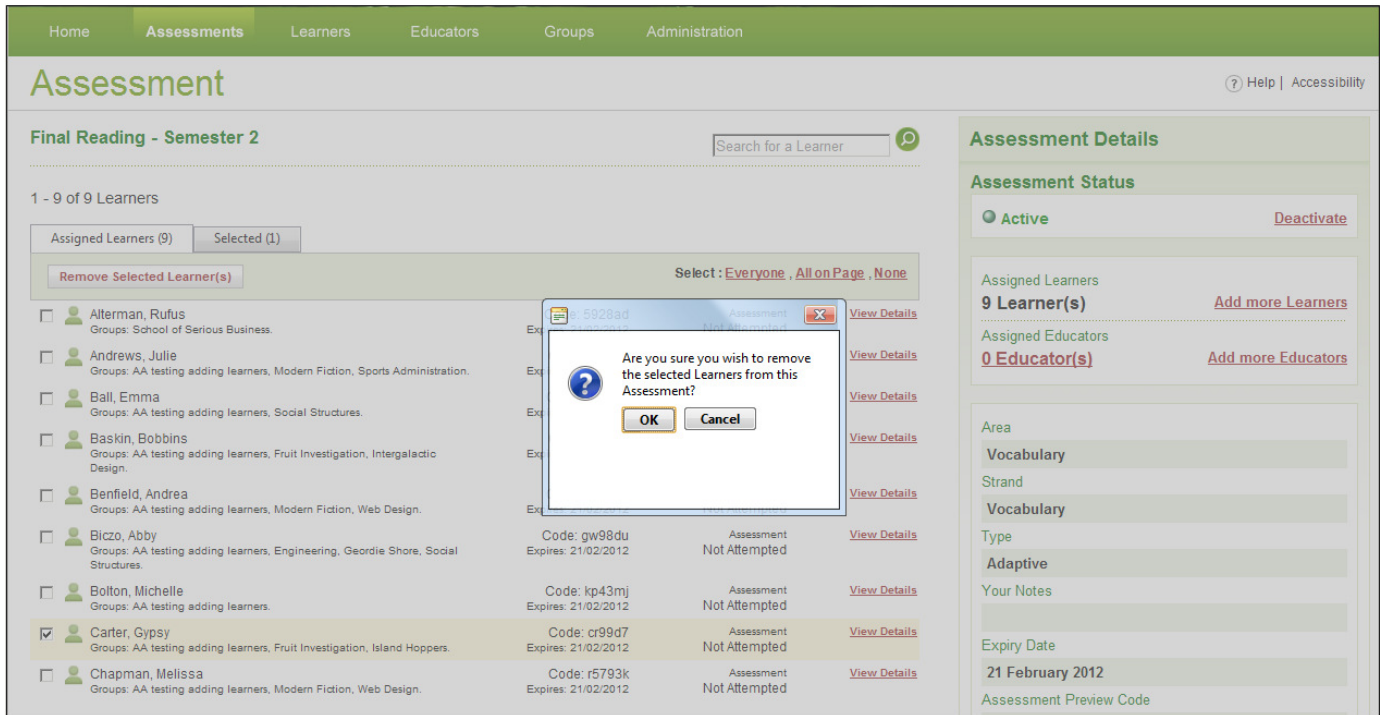

From the **Learners** tab

1. Select the Learners that you wish to include in the report.
2. For the area you wish to report on, select the **View Learner Results** link in the **Latest Learner Results Reports** panel on the side menu.

A prompt message now displays when a Learner is selected to be removed from an assessment

- To avoid accidental deletion, when a Learner has been selected to be removed from an assessment, a prompt message will appear to act as a confirmation of this action. User input by way of clicking **OK** or **Cancel** is required to complete the process.

The screenshot displays the 'Assessment' interface for 'Final Reading - Semester 2'. A confirmation dialog box is overlaid on the screen, asking: 'Are you sure you wish to remove the selected Learners from this Assessment?'. The dialog has 'OK' and 'Cancel' buttons. In the background, a list of learners is visible, with Gypsy Carter selected. The 'Assessment Details' panel on the right shows the assessment is 'Active' and has 9 learners assigned.
